Subject: RE: Google 2026 Annual Data Center Reports

Isabella:

It has come to our attention that the redactions applied to the redacted reports previously forwarded inadvertently failed to remove the underlying text, which allows the redacted information to be copied and disclosed from those files. Accordingly, on behalf of Google, LLC, we request that you please delete the previous versions of the annual reports and use the attached documents when responding to public inquiries moving forward. Please contact me with any questions. Mike
